

Telo-Vital

Your Anti-Aging Breakthrough...

Powered by nature, and perfected by science. Telo-Vital is a breakthrough in nutrition science that supports the health of your telomeres, the source of cellular aging. Telo-Vital is made with organic botanicals tested to activate telomerase in human cells. They work with your body to help you stay strong, vibrant, and healthy as you age. Backed by the groundbreaking longevity research of Dr. Bill Andrews, Telo-Vital helps support healthy telomeres, encourage cell resilience, and support long-term vitality. All in one simple daily capsule.*

7 Benefits of Healthy Telomeres

1. Sustained Energy

Healthy telomeres support optimal mitochondrial function, your cells' energy centers.

2. Sharp Focus

As telomeres shorten, brain fog builds up. Healthy telomeres support clarity and focus.

3. Natural Immunity Support

Your immune system response relies on your cells running at peak performance.

4. Restful Sleep

With cellular support, age-related sleep issues are replaced by sweet dreams.

5. Feeling Strong Again

As cells are supported by healthy telomeres, it's easier to engage in strenuous activities.

6. Fast Recovery Times

Optimal cellular function fuels your body's recovery, so you can bounce back fast.

7. Improved Resilience

With healthy telomeres, you can withstand stress and feel more vital each day.

the good inside
